

Streamline and automate your business processes

Invoices

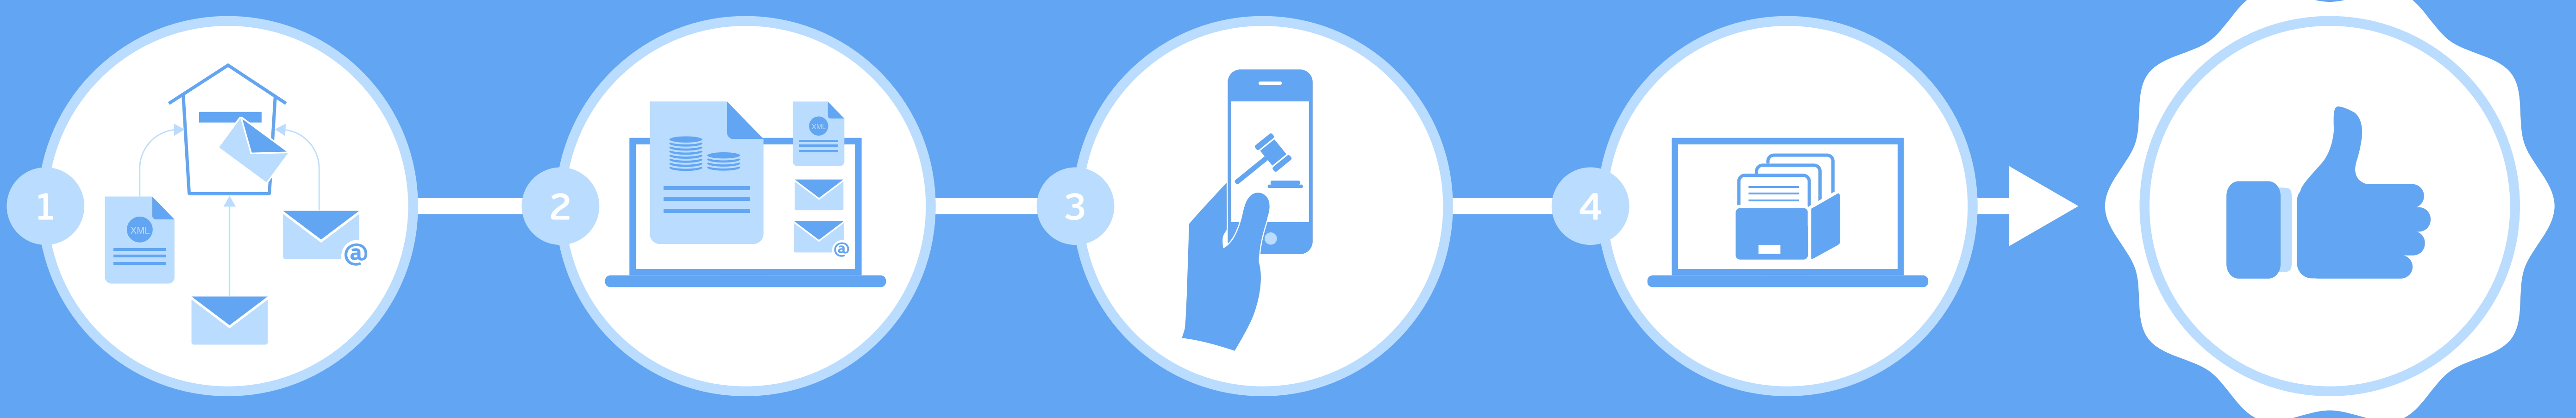

1 Use your accounting system to create and send invoices

2 Know which invoice format your client can receive; e-invoicing, email or regular mail

3 Send your e-invoice to all:
- Companies
- The public
- Private individuals

- ✓ Improved Cash flow
- ✓ Save Time and Money
- ✓ Ensure that all invoices arrive

Invoice receipts

1 Use the financial system as your invoice post office

Get your suppliers to send you invoices electronically!

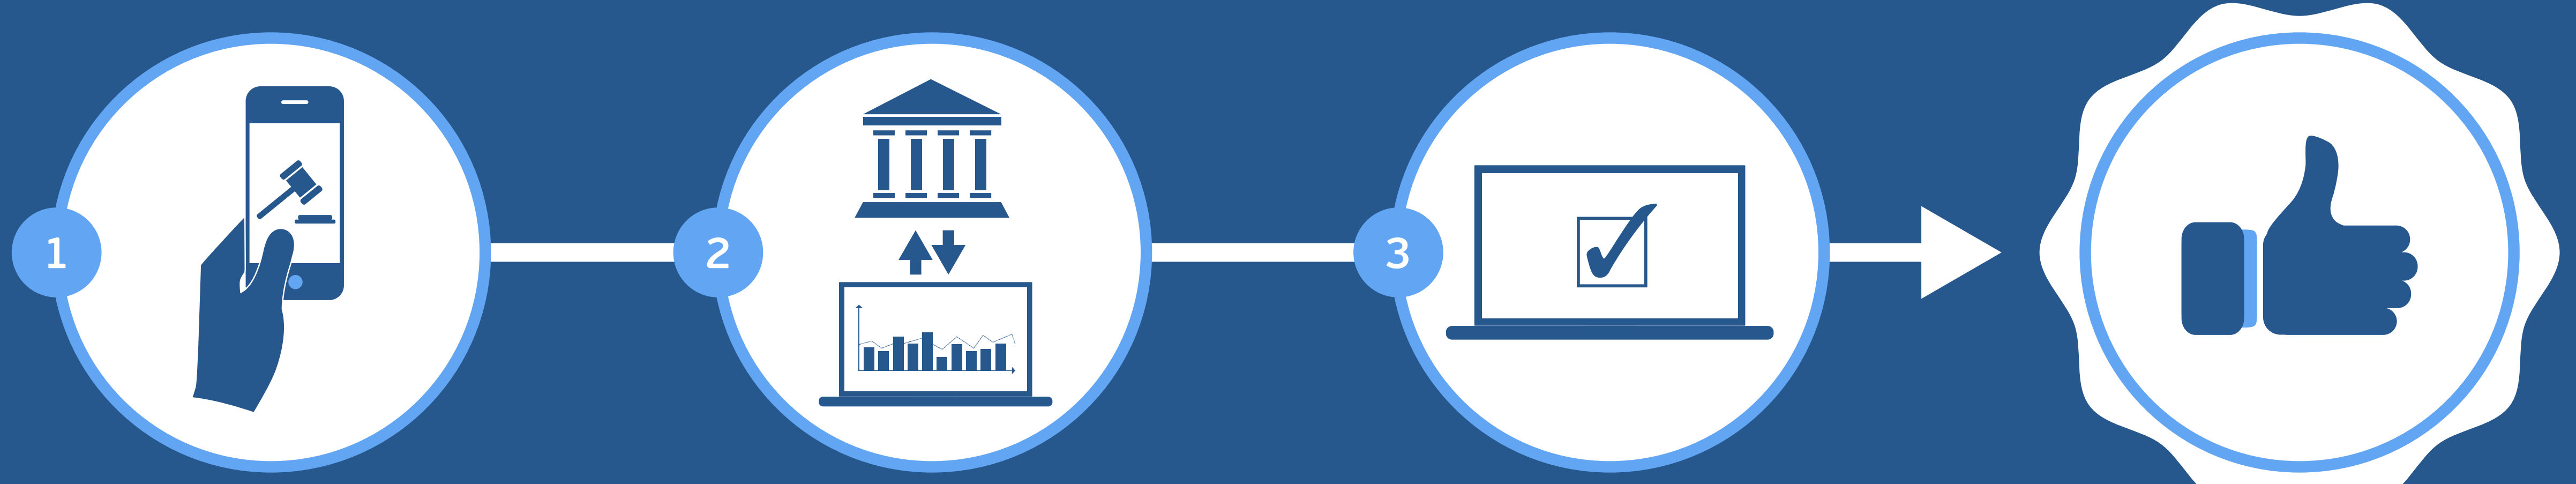

2 Invoices automatically go into their respective system

3 Invoices are automatically sent out and can be approved on both on PC and mobile

4 All invoices are archived in accounting

- ✓ 100% correct data, all of the time
- ✓ Ability to automatically post
- ✓ Automatic sharing for approval

Bank Handling

1 Payment proposal

2 Payment proposals are sent out automatically and can be approved on PC or mobile

3 Payment is automatically in accounting

- ✓ Minimise human error and improve security
- ✓ Covers all Norwegian banks through Nets
- ✓ Approve payment orders in accounting or online banking
